EDUCATION

Bachelor of Computer Science & Bachelor of Science in Data Science
Calvin University, MI

Expected: May 2028

OVERVIEW

Diligent, dynamic and self-motivated Computer Science and Data Science student seeking to grow and master skills and knowledge in Information Technology in the areas of computer programming, cybersecurity analysis, networking, network security, data and security engineering.

PROFESSIONAL EXPERIENCE

Student Data Integrations Developer
Calvin University

Jan 2026 - Present

- Develop and maintain reports in Workday.
- Assist with building and monitoring integrations in Workato using Logic Functions and APIs.
- Support data integrity, quality, and synchronization across enterprise systems such as Workday and internal databases.
- Collaborate with the Senior Systems Analyst and Information Systems team on assigned projects.
- Document processes, code, and workflows to support maintainability and team knowledge-sharing.

Dining Hall Student Worker
Calvin University

Sep 2024 - Jan 2026

- Provided quality customer service and support in a fast-paced dining hall environment for 800 customers per shift.
- Set up and tore down food stations and ensured cleaning and sanitation levels were up to company policy standard.
- Communicated with chefs about food levels at each station and assisted coworkers when needed.
- Checked in customers into the dining hall and answered questions from customers about special events, dining hall food locations, and menu options.

PROJECTS

English Premier League(EPL) Project

Dec 2025 - Dec 2025

<https://tinyurl.com/ysj5wrrwf>

- I collaborated with my classmate on this predictive analysis project.
- We downloaded our English P data from Kaggle and we extracted the data that was relevant for our project.
- We wrangled our data, performed Exploratory Data Analysis on it and we were about to find hyperparameters for outcomes in the world-class and highly celebrated English Soccer League using a Logistic Regression Model.

UEFA Champions League (UCL) Project

Oct 2025 - Oct 2025

<https://tinyurl.com/2pgs38nb>

- I collaborated with a classmate to work on a project analysing data from the 2021/2022 season of the UEFA Champions League.
- We extracted the data from our sources and transformed it to fit our goals of finding the best players by position .
- We carried out Exploratory Data Analysis and arrived to our conclusion.

Sure Seats Reservation

Nov 2024 - Dec 2024

- Built a Python GUI for airplane seat reservations with flexible seat generation, CSV file data handling and user-friendly graphic.
- Used different data structures such as lists and dictionaries to store user information, membership status, and seat availability.
- Applied modular arithmetic to algorithm for seat plotting which allowed easy scaling for different cabin size and style.

VOLUNTEER EXPERIENCE

Vacation Bible School Volunteer

ECWA WUSE II Church(2022-2024), Living Water CRC(2025)

2022 - 2025

- Provided food for 900+ children and staff through excellent delivery of food and customer service.
- Assisted in directing students to the correct locations during rally events.
- Helped out with programming including planning games, lessons and other fun-activities.

LEADERSHIP

Residence Hall Executive Team (RHET) Treasurer
Calvin University

Sep 2025 - Present

- Coordinated leadership efforts across the residence hall, supported all student leaders and planned residence hall-wide events.
- Managed and maintained financial records, budget of \$5,000 and reimbursements for dorm-wide expenses.
- Attended weekly meetings for planning of events.

Head Prefect

Thomas Adewunmi International College Oko

Sep 2022 - Jul 2023

- Led and coordinated student leaders on campus and served as an intermediary between students and school administration.

- Collaborated with other student leaders and school administration in solving school wide issues including school daily schedule change and dining menu options.
- Created a daily assigned schedule for student leaders to supervise student led activities.
- Utilized agenda and facilitation skills to lead meetings of the student leaders committee and communicated the committee's ideas with the school administration.

PERSONAL DEVELOPMENT

- Currently pursuing the TryHackMe Security Analyst Level 1 certificate to strengthen cybersecurity analysis skills.
- Participated in TryHackMe's Advent of Cyber Month Long Event.
- Completed the TryHackMe Pre-Security path to learn Network and Operating System fundamentals.
- Completed the TryHackMe Cybersecurity101 path to learn cybersecurity fundamentals, specializations and tools.

SKILLS

- Programming: Python, C++, C#.
- Tools and Systems: Linux OS and Command Line Interface, Windows OS and Microsoft Office Suite, Snort, Wireshark, Nmap, Burp Suite, JohnTheRipper, Metasploit, CyberChef, RStudio.
- Problem Solving, Team Collaboration and People and Event Planning and Management, Data Manipulation and Visualization, Cyber Investigation.
